To Whom It May Concern

Unique Networks

We are a medium sized practice with approximately 40 staff across 2 offices.

From the commencement of the Firm in 2007, we have had an ongoing struggle to ensure that our IT systems have kept up with both the growth of the Firm and the ever changing landscape in which we compete, whilst remaining cost effective.

Since 2007, Unique Networks have been charged with the responsibility of advising us and providing all of our IT expansion and maintenance services, commencing with the implementation of new servers in 2007 and more recently ensuring a flow of services to a second office.

I could not commend Matthew and his team more highly in the way in which they have performed. They respond immediately to questions and issues as they arise and are pro-active in both their service and their maintenance. Unique Networks are not only professional, they carry out their services with minimal disruption and down time to the staff.

I highly recommend Unique Networks to anyone seeking friendly and professional network administration, IT support and maintenance.

Yours sincerely
